August 30, 2018

Attention: All Valued K&S Enterprises Customers

Subject: Company Closing

Dear Valued Customers,

We regret to inform you that the time has come for K&S Enterprises to close our doors. We have enjoyed many years serving our customers the highest quality Hi-Temperature and Engineered Seals and Sleeves for Aerospace and Commercial Applications. Unfortunately, the California climate has made it impossible for us to remain competitive in this ever changing and demanding Industrie.

At this time, we must focus on our final production days as we take the necessary steps moving forward to complete our exit plan. In order for us to fit orders into our final planning schedule, we will need to target October 31, 2018 as the last date K&S Enterprises will accept purchase orders. Effective as of the date of this letter, purchase orders received may not fall into K&Ss' normal standard lead times. While we will make every attempt to complete orders according to current lead times, and customer short term due date requirement's, please be prepared to negotiate your due/receive dates as we will begin a first come first serve ship schedule.

K&S Enterprises *is* currently up for sale, so the likelihood of an acquisition is definitely possible. In the event of an acquisition, you may still have the opportunity to purchase the same products that you have ordered from K&S in the past however, operation will cease here at this facility as of March 31, 2019.

Please direct all correspondence with regards to this letter to myself at orders@ksentusa.com.

On behalf of me and my team we would like to thank you for all of your business.

Kindest regards,
Raquel Gonzales
